JB and the MOONSHINE BAND

Be on the lookout, there's a new group of outlaws on the Texas music scene. Well ok, they're not really outlaws, but their music is so good, it oughtta be against the law! They're called JB and the Moonshine Band and they want to play at YOUR CLUB!

If there's one thing that separates these East Texas guitar slingers from the rest of the pack, it's got to be song writing. From the heartfelt ballads "Whiskey Days" and "Gotta Be Strong" to the hilarious up-tempo tracks "Sticker Peck Out" and "Perfect Girl", this band's original music is something that this area has never seen before... and it's spreading like wildfire across the Texas countryside.

Lead singer JB Patterson writes most of the band's songs. JB's songwriting talent is truly something special. Just listen to the music, and you'll soon agree... this band is going places.

If you've been looking for the next big act, or passed on other opportunities to book a band "before they were", now's your chance to get the hottest commodity in Texas before it's too late! Be the first to book this band in your area.
